Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records.

GENERAL COMMENTS

Uncollected Poll Taxes - Prior Years:

It is again recommended that the poll tax warrants for the years 1946, 1947, 1948 and 1949, be carefully gone over by the Board of Selectmen and Tax Collector and that such taxes as appear to be uncollectible be abated. The uncollected taxes on these warrants at the close of the last two fiscal years were as follows:

	December 31, 1950	December 31, 1951
1946 -	\$18.00	\$16.00
1947 -	32.00	32.00
1948 -	60.00	56.00
1949 -	84.00	76.00

Conclusion:

The accounts of all town officers which we examined were found in good condition and the accounting procedure conformed to prescribed methods.

The provisions of Section 31, Chapter 211, of the laws of 1939, require that this report or a summary of its essential features shall be published in the next annual town report.

We extend our thanks to the officials of the Town of Allenstown for their assistance during the course of the audit.

Yours very truly,

SELECTMEN'S REPORT

The following is a try at given the Taxpayer's of Allens-town some kind of a report that would interest them. Seeing this is the first time that such a task is undertaken, we would like to ask the Taxpayers to be fair and consider this report as information about our Town and work done in 1951.

Through our inventory of April 1, 1951. there were 735 persons liable to a poll tax and exemptions as follows, 186 veterans, 8 widows of veterans and 65 persons over 70 years old.

There were 373 buildings in Town not including mills, mill corporation, business section, box shop, hencoops filling stations and garages. 271 one tenement, 56 two tenements, 5 three tenements, 6 four tenements, 1 five tenement, and 1 six tenement, 10 cottages, 6 camps and 17 new one tenement buildings built in 1951 accomodating 466 families.

We have 93 street lights cost as follows;

80	1000 Lumen Incandescent lamps @ \$1.83 1/3 a month.	\$146.66
6	2000 Lumen Incandescent lamps @ \$2.79 1/6 a month.	16.75
5	6000 Lumen Incandescent lamps @ \$4.58 1/3 a month.	22.92
2	15000 Lumen Mercury Vapor lamps @ \$6.00 a month.	12.00

Current monthly bill.	\$198.33
-----------------------	----------

We have 33 hydrants and the Pembroke Water Wks. installed one of the two hydrants voted at the 1949 Town meeting and promised to install the other in 1952.

A new burner with new controls was installed at the Library after the old one proved useless.

The sidewalk on School St. was started at the corner of Valley St. and built past the residence of Ernest Coulombe.

The sidewalk on Hamel's Ave. was completed and two catch basins were built.

A sewer was built from Main St. to the residence of Hector Hevey on West St., the sewer on Reserve St. was ex-

tended to the residence of Raymond Fortier, the sewer on Al's Ave. was extended to the residence of William Mondoux, he paying for the digging and burying and the Town furnishing the pipes, and a sewer was also built from Valley St. to the residence of Adrien Cote with the same understanding. There is \$2,000 in reserve for the River Road sewer, work was not started in 1951 for the following reason, after having contacted the N. H. Water Pollution Board for a permit to build said sewer we received a reply on June the 8th that the Commission had agreed to give the Town a conditional permit for temporary discharge pending the classification of the river, upon the condition that the Town agreed to build a settling tank facility, cost of such a septic tank to be approximately \$1,600, and a total cost of such a sewer to be \$7,800 therefor we decided to wait till Town meeting time and put the matter up to the people. We could not start such a project with a \$4,000 appropriation.

It was understood that the proposed sewer line of 2300 feet in length was to serve 19 existing houses together with an estimated 20 additional lots and the 40 lots remaining in the development area, on this basis around 70 people would be served at present and a future load of 280 people would be involved.

On T.R.A. we finished graveling the Wing Road, bulldozed the hill on Mount Delight Road and road mixed the Deerfield Road to Batchelders Corner with intentions of finishing road mixing the Deerfield Road in 1952 and start the Wing Road.

On the Baseball field appropriation a dugout was built also a shed beneath the bleachers which gives storing space.

No money was spent for the Municipal Court seeing we have had no Judge since 1950.

No money was spent on Blister Rust because the State could not find the time to do the work.

Al's Ave was oiled two coats to the residence of Raoul Courtemanche. A street light was installed on Al's Ave. on

pole No. 2, also one street light was installed on pole No. 2 on Theodore Ave.

We are pleased to say that we have completed the work the people gave us through the Warrant of Town meeting of 1951.

REPORT OF THE FOREST FIRE WARDEN

Only YOU Can PREVENT Forest Fires

New Hampshire faces a real forest fire problem and challenge! To meet it successfully, New Hampshire and your community needs YOUR thoughtful and cooperative effort.

Continuously heavy lumbering operations following the hurricane has produced more than 4 billion feet of lumber. This lumber helped win World War II, meet post war needs and now the current requirements for the Korean military action. But it has added nearly 900,000 acres of slash to our already existing slash problems.

When YOU fail to use needed precautions while burning in or near woodlands —

When YOU fail to secure the required permit from your local forest fire warden before burning —

When YOU are careless in smoking near woodlands —

When YOU throw lighted cigars, cigarettes and matches from vehicles moving along the highway —

YOU are violating fundamental common sense and may easily contribute to a substantial and costly fire. Such conflagrations are possible because of the hundreds of thousands of slash acres throughout the state!

REMEMBER — the fire YOU prevent might be one which could conceivably burn YOUR property and harm YOUR community!

ONLY YOU and YOU and YOU can prevent forest fires!! Will YOU help!

ANNUAL REPORT OF THE SUPERINTENDANT OF SCHOOLS

February 1, 1952

To the School Board of Allenstown:

It is with pleasure that I submit my fifth annual report of the public schools of Allenstown. May I express my appreciation and thanks for your continual confidence and help and hope that the coming year will prove as inspiring and fruitful as the past.

There was but one change in the teaching staff beginning in September 1951. Mr. Katsiaficas, after serving the school and the town faithfully and well, moved to Littleton, New Hampshire as a principal of a 12-teacher school. It was a decided advance both financially and educationally. I know he receives the best wishes of the community and hope the children and teachers with whom he will work appreciate his untiring efforts in their behalf.

Mr. Katsiaficas was replaced by Mr. Everett C. Fitzgerald, Jr., of Manchester. He is a graduate of St. Anselm's College and holds a master's degree from Springfield College in Springfield, Mass. He comes to Allenstown with two years experience as a principal and very highly recommended. His teaching ability, knowledge, and background in both the elementary and secondary fields should prove exceedingly helpful and far-reaching to the children of the district. Mr. Fitzgerald is married and has one youngster, a little girl.

Miss O'Malley in Grades 3-4-5 and Miss Benard in Grades 1-2 returned in the fall to continue their excellent work with your children.

All three of your teachers have given generously and worked diligently to be well prepared for their respective positions. They have all taken summer courses for the past two years. May the good work continue.

The School Board was very fortunate in finding Mrs.

Pearl Hatfield to replace Miss Gardner in the school lunch program. She has had considerable experience in cooking and serving lunches. With this experience and the fact that the parents desire for their children an adequate noon lunch, the change in the personnel should prove no handicap. Miss Gardner's program in the school for the time she had charge was considered one of the best in the state according to the State Lunch Supervisor and we all hope she will progress and enjoy her present position as much as she did in working with the children of our school.

It is a pleasure to work with men and women who believe in the growth and welfare of boys and girls. This was vividly in evidence when, without dissent in any way, the district at the March 1951 meeting voted to replace the slate roof of the building with a more modern and fireproof covering. It was completed during the summer and well within the amount appropriated. Again cooperation and the welfare of youth have prevailed.

Any report of the school would not be complete without my thanks and appreciation to Mr. Edward Hamel, the building custodian. Day in and day out this young man carries the brunt of every part of the building. It is through his efforts, time, and patience that the building is in excellent condition. His faith in the youth of the school and his imagination in meeting the problems which develop where children are being educated, merits commendation and my congratulations for a job well done. We need more men of his calibre in the right places in our schools.

May I call your attention briefly to the budget for 1952-1953. You will note that in the overall picture, the increase over last year is less than \$500.00. The greatest increases have been made in Teachers' Salaries and New Equipment. You have now placed your teachers on a par with the other districts in this Union and are in a position to hire adequate instruction for your children. Modern education requires increased space in the classroom. This can be done in two ways. The first requires an addition to the building. Of course, this is very un-

wise and therefore impossible at this time. The second, however requires a minimum of expense. This may be accomplished by removing the present immovable, row on row, stereotyped desks and replacing them with a light, movable, tubular steel, plastic top desk and chair. This allows the teacher and pupils more freedom of movement for all classroom activities whether it be reading, games, singing, and many others. Each year this type of replacement can be made while the overall expense will be held to a minimum. At the same time your children and their teachers may enjoy and grow in the way all boys and girls have the right to grow in a democracy.

It should be pointed out in passing that in every home, in every business, in everything, living costs have increased sharply. This has been and continues to be true in education and parents and taxpayers must recognize that fact. Therefore, when you are studying the budget for next year, bear in mind this situation. Even items such as paper towels, pencils, all kinds of school paper, fuel, instruction aids such as books and reference materials, and many other items needed, have increased in price from 15% to 40% over the past three years. Only recently superintendents and purchasing agents were notified to expect the books used in the classroom to be at least 33 $\frac{1}{3}$ percent higher than this present year. It would seem, then, that having studied this matter carefully and allowing for necessary books, supplies, and other material, the School Board of the district has done a remarkable job holding the budget to within \$500.00 of a year ago. It is a pleasure to work with the members of such a Board.

May I again thank the children, teachers, School Board members, and the citizens of the town who have so generously helped to make this school year a progressive and happy one. By their guidance and untiring aid the school has been able to show this unsettled world that by cooperation and an abiding faith in God and each other America will endure forever in the education of its children.

Respectfully submitted,

Murray H. Watson,
Superintendent of Schools.
